

# Serving your kitchen so well, you'll forget it's even there.

## Ecolab® DishIQ™

Experience the power of our integrated digital solutions that dynamically adapt, predict, and monitor—driven by our extensive expertise and unwavering support for exceptional results.

### **Improve productivity**

Learns and automatically adjusts cycles, helps simplify labor by minimizing user error and reducing operating costs

### **Fix it before it breaks**

Anticipates changing conditions to help reduce rewash, minimize repair part expenses and boost uptime

### **Quickly solve operational issues**

Helps your machine stay in operation with active monitoring, timely alerts, remote fix and prepared onsite fix options

**A dynamic dishmachine program that seamlessly responds to your unique needs and gets smarter over time.**

- Adaptive Cycles\*
- Predictive Service
- Active Monitoring via Ecolab DishIQ App

\* Adaptive Cycle capabilities coming late 2025 for ELT and E-XLHT. Other dishmachine models to follow.

# ECOLAB®

# The future of dishmachine management, today

Help improve operational productivity and decrease dish machine challenges through dynamic digital solutions and differentiated expertise and support.

\* Adaptive Cycle capabilities coming late 2025 for ELT and E-XLHT. Other dishmachine models to follow.

## ECOLAB® GLOBAL INTELLIGENCE CENTER

### Taking action before there's an issue

Ecolab Global Intelligence Center provides continuous dishmachine monitoring and remote control - and acts fast on the information that matters most.

Let us help transform your dishmachine operations
